Knockout Bounty

So einfach funktioniert's:

Knockout Bounty-Turniere folgen denselben Regeln wie Standardturniere. Ausser, dass das Buy-in zwischen dem allgemeinen Preispool und einem Bounty-Pool (Kopfgeld) für jeden Spieler aufgeteilt wird. Bei einem Knockout Bounty-Turnier mit einem Buy-in von € 125,- gehen € 100,- in den normalen Preispool und € 25,- in den Sonderpreispool ("Bounty"), der auf den Kopf eines jeden Spielers ausgesetzt ist.

It works as easily as this

Knockout Bounty tournaments follow the same rules as standard tournaments except for that the buy-in is distributed between the general prize pool and a bounty pool (bounty) for every player. With a Knockout Bounty tournament and buy-in of € 125 € 100 goes to the normal prize pool and € 25 into the special prize pool ("bounty"), which is placed on the head of every player.

Funziona semplicemente così:

I tornei Knockout Bounty seguono le stesse regole dei tornei standard. Tranne che per il fatto che il buy-in viene suddiviso tra il monte premi generale e un Bounty-Pool (taglia) per ogni giocatore. Ad un torneo Knockout Bounty con un buy-in di € 125,-, vanno € 100,- nel monte premi generale e € 25,- nel monte premi particolare ("Bounty"), che viene assegnato sulla testa di ogni giocatore.
