2nd place	30%	2nd place	30%	2nd place	25%
3rd place	20%	3rd place	20%	3rd place	18%
		4th place	10%	4th place	12%
				5th place	10%

#### **CAPT Team Cup – this is how it works:**

- The tournament begins at the same time in three different flights. A player from every team plays in each flight.
- After every level players have the chance to exchange their seat with a team member. Here the chips are **not** taken; they remain in place! Only the players are exchanged!
- After level 8 the individual team members' stacks are combined and only one player continues playing for his or her team. From this point on the team captain has the option of changing players after every hand.
- Every team receives a second chance stack for 10,000 points and has the option of claiming it for one player at any time up to level 8. If at level 8 the second chance stack has not been used, it is added to the team stack.
